

IT- and Business Consultant

We are looking for an IT- and Business Consultant, who will join our existing team of developers, at our office in Aabybro.

mySupply is a company with strong values regarding responsibility, quality, delivery, credibility and collaboration. We pride ourselves on having a professional approach to solving tasks, where the customers and their needs are paramount.

We have created a unique position on the market of consulting and providing solutions for the exchange of electronic business documents and integrations, as well as professional procurement solutions. We work with cloud solutions and the latest technologies in the field. In addition to our own products, we also sell and implement SAP solutions. We have participated in the development of requirement specifications and documentation in relation to Next Generation Digital Post in Denmark, and we are at the top of the list when public and private organizations need consulting and solutions within our field. This is supported by the fact that mySupply, again this year, has been named, by Computerworld, as Denmark's best IT company, within electronic document handling.

Our customers base is vast and includes both large and small private and public organizations, as well as larger international companies.

We expect that you can work independently, as well as in a team.

About you:

- You have a degree or extensive experience within purchasing and/or accounting.
- You have knowledge within ERP-systems as well as purchasing and logistic processes.
- You have knowledge within electronic invoicing and digital system solutions.
- Preferably experience as a project manager in relation to implementation projects.
- You are capable of driving technical solutions in relation to business issues.
- You thrive on satisfying customers and contributing to their success.
- You are service-minded and great at understanding the customers reality.
- You are eager to learn and pursue broadening your knowledge on you own initiative.

Salary and Employment Conditions

The position is a full-time job of 37 hours, salary according to qualifications, which includes pension scheme with health insurance and critical illness.

Information and Application

If you would like more information about the position, please contact Chief

Consultant, Charlotte Dahl Skovhus, phone: (+45)40254743, e-mail:
