

COWI

At mySupply, we are specialists when it comes to developing integration solutions in software. Whether you are looking for a simple or advanced solution, we can together solve the task.

“ **COWI**

From the beginning, we were in sync with what the issue was and what was needed to solve it. And it has progressed from there. There haven't been any obstacles in the collaboration, but there have been plenty of challenges along the way that needed to be addressed. However, they have been handled professionally and effectively, and we have received both good guidance and some excellent solutions along the way.

— Head of Section, Jesper Søborg

Integrate electronic invoices into SAP Concur with an innovative and time-saving tool.

Travel, expenses, and invoices can be consolidated and managed within SAP Concur. With mySupply's integration, invoices and credit notes received in various formats through the NemHandel or Peppol infrastructure are imported.

Every company is unique and often requires customized solutions. At mySupply, we specialize in creating the exact solution that suits your company, and this was also the case in our collaboration with COWI. As part of replacing their invoice approval system with SAP Concur, COWI needed a partner to handle the task, as new interfaces had to be built. With a recommendation from SAP Concur, the collaboration with mySupply was initiated.

COWI

We have communicated on multiple levels, and all the way around, I am confident that everyone will say they have encountered willingness and competence, and that there has been good dialogue.

– Head of Section, Jesper Søborg

FAKTA

Integration to SAP Concur

- Electronic invoices are received, converted, and automatically created.
- Integration with NemHandel and Peppol infrastructure or VANS operators for receiving electronic invoices.
- Conversion of all types of electronic document formats, such as OIOUBL, EHF, Sve-Faktura, Peppol-BIS, EDIFACT, etc.
- Automatic creation of attachments from invoices.
- Automatic determination of suppliers in SAP Concur.
- Automatic determination of employees responsible for approving invoices.
- Direct integration with VAX 360 for document exchange.

With 90 years of experience, COWI is a leading consulting firm that, with experts in engineering, environment, and socio-economics, creates 360° solutions for their clients.
